AWAKENS Let The Revolution Begin…

In today's world, where technologies have reached sky-high, engineering is at its acme and science has grown by leaps and bounds due to the relentless human efforts, the one thing that slips through is about the society and the surrounding environment.

It's our onus to give back to the society, because we have gained a lot and prospered by using the resources available in it. Let's spare some time and give a thought to the reigning issues of our society.

So here, at VISION 2016 we present before you, ' THE AWAKENS" - An opportunity for the young minds to use their beliefs as solid as rocks, values stronger than steel and concern which is inherently humane to find solutions and pave a path for making the world a better place to live in.

Get ready for the Awakening..!!!
